# About SolAquaria

## When different passions join forces

Solaquaria is a project founded on different passions.

Of course, at first there's them: aquariums, fishes and their silent but strong impact on human beings. On the other side, games. In the era of metaverses we became addicted to the fact that we could create a new World, bringing the fish-tusiastic experience to the next level.

The only missing ingredient? YOU.

We wouldn't be here without you, and we count on you to make this project a safe and magic place that improves every day and brings new passionate people to the space, one fish at a time.

# Aquarium hobby in numbers

- **300M** hobbyists
- **200 B** in ornamental fishes spending
- **800%** growth in the last 6 years

# About SolBettas

Are you a sea creature looking for a comfy home?  
Choose the habitat that suits you the most!

I'm a simple Betta: I'm looking for a teeny-tiny place.

A bowl of my own where nobody is in my way.  
TANK-Mates? NEVER!  
Seaweeds are always greener on the neighbour's side?  
Who cares, as long as they stay the hell away from my garden

Want some sugar? You'll only get blood from me!  
Phone contact is preferred for potential propositions...umpf, people.

# SolAquaria Team

AliceinAquaria  
*Marketing Manager*

*I'm fantastic, what about fabulous, beautiful, talented, very rich  
...  
ah ... no ... it's just a dream. I'm just uniquely me! There's still  
some time ... I'll take another nap. Sweet dreams 🥱*

# SolAquaria Team

Escalor

*Content Creator*

*I don't like sunshine, I only live at night and I've sold my soul for a Digimon card. To be or not to be a vampire? What is certain is that in the middle of the night, if you see a light at the end of the corridor... it will be me in front of the fridge.*

# SolAquaria Team

Aroman

*Team Breeder*

*Multi-million startup founder, Crypto and NFT lover, aquarium obsessed, fish breeder. Currently @ my most ambitious breeding project of my life.*

# SolAquaria Team

Falka

*Community Manager*

*Homemade food enthusiast, and a low spec gamer whose GPU is about to catch fire. I'm a creative person with a lot of experience in customer care and passionate about art (digital and non).*

# SolAquaria Team

BakaWaves

*Social Media Manager*

*I love everything cute and fluffy and I have a passion for make-up. I really like being among people over a glass of spritz but at same time I shut myself up in my room to devote myself to films, TV series and anime.*

# SolAquaria Team

GeekFish

*Developer*

*Gimme bugs, I love them 😊 Fell in love with Solana, probably you too. Yes, I have a beard. No, I'm not a cliché, or maybe yes...*

# SolAquaria future collections

Our team is super committed and excited to release additional collections that will have plenty of benefits for our holders...

Please stay tuned to know more about and connect with us on [Discord](#) to stay up to date with future collections!

# Roadmap

# Collection Royalties splitting

# Hodlers benefits

We established great benefits for our NFT hodlers which will increase the value of their investment increase overtime.

Those benefits will require a different project maturity but, the main goal is to help our community with both short-term and long-term strategies to keep a tremendous value to their own art pieces.

- The first feature is of course the buy back. Our team will buy the low-priced NFTs to keep the price floor higher. Those NFTs will be given back to the community through giveaways.
- We wanted also to set a sort of staking mechanism for our holders. That's why we decided to set up two 15% Royalty's basins (for a total 30%) that will be given back to the community (paid in SOL). So, expect returns for random holders and most engaged holders.

# Hodlers benefits

- Even though here in SolAquaria we believe our most loyal hodlers will benefit much much more once the game is released, we will release free NFT drops to all holders to let them collect and use in the upcoming breeding system.
- The breeding system is one of the most important asset for our holders. It allows NFT holders to breed two different species into a mutant one. These mutant collection will have a very limited number of items and will have special powers to use in our upcoming Aqua World.
- Aqua World is where the game really change. A real aquatic metaverse where you can buy, lend and explore different lakes and rivers, and most importantly, you can play a PvE game to earn tokens.

We know we didn't disclosing much yet but we are in a very early stage of the project and we count on your feedback to keep improving the benefits we offer to our community.

# Aqua World

Aqua World is the SolAquaria aquaverse, the home of our lovely fishes!

Aqua World will be a PvE game, with a Management section where you can build and show your aquariums to the World.

Gamers will play to earn tokens and trade NFTs.
